

FOR IMMEDIATE RELEASE

CIO Applications Magazine Selects Ocean Data Systems as “Top 25 Bio Technology Solution Providers 2017”

October 10, 2017 — Ocean Data Systems (ODS), the market leader in reporting and corporate dashboards for the automation industry, announced that it has been chosen among the “Top 25 Bio Technology Solution Providers 2017” by CIO Applications Magazine.

The positioning is based on an evaluation of Ocean Data System’s capabilities in steering the biotech industry towards automated report generation and data analysis. The annual list of companies is selected by a panel of experts and members of CIO Applications’ editorial board to recognize and promote technology entrepreneurship.

“We are glad to announce Ocean Data Systems, with their Dream Report product, as one among the Top 25 Bio Technology Solution Providers 2017. Dream Report has long been a leading product in the Biotechnology landscape, and their progress and advancement in this market is impressive. We are pleased to recognize Ocean Data Systems for its exemplary contribution -- Dream Report™ to the Biotech marketplace as an industrial business intelligence solution,” said Joe Phillip, Managing Editor of CIO Applications.

“The Pharmaceutical and Biotechnology market is one of our largest segments,” explained Roy Kok, VP Sales and Marketing for Ocean Data Systems. “The selection of the right reporting, dashboarding and troubleshooting software will have a significant impact on operations. We have worked with leading customers in this space to identify and address their needs, and refine Dream Report features to become a perfect fit.”

About CIO Applications

CIO Applications, is a technology print magazine, published from Silicon Valley, CA that is a prime platform for CIOs to discuss and ponder about innovative enterprise solutions. While analyzing the U.S. media landscape, it is a comprehensive tool that helps the upcoming enterprise IT vendors to engage and show case the solutions for the enterprises. It helps technology leaders with the analysis on new technologies and gives a better understanding of the role that enterprise solutions play in achieving the business goals.
