

FOR IMMEDIATE RELEASE

Owl Cyber Defense Solutions Joins Dream Report Proven Partner Program

October 5, 2017 – Ocean Data Systems (ODS), the market leader in reporting and corporate dashboards for the automation industry, announced that Owl Cyber Defense Solutions, LLC (“Owl”) has joined the [Dream Report Proven Partner Program](#) and is recommending Dream Report as their solution for custom reports and dashboards.

Owl is a leading supplier of data diode technology, a hardware-based one-way data transfer and cybersecurity solution designed to safely and securely bridge information from air gapped control networks to other networks and users that need it. Owl data diodes enable the use of Dream Report both inside and outside of the control network – users inside can safely share reports and emails across the air gap, and users outside the control network can access replicated OPC data to perform compliance, performance and troubleshooting analysis.

“We have worked closely with Owl Cyber Defense Solutions to test the various use scenarios and develop the best value proposition for our customers,” explained Roy Kok, VP Sales and Marketing for Ocean Data Systems. “Owl offers a unique solution that adds great value to Dream Report, expanding the way Dream Report can be used in applications falling under PPD-21 - Homeland Security’s 16 Critical Infrastructure Sectors.”

“Our solutions are all about enabling the sharing of valuable operational insights while maintaining the highest levels of security. Owl data diode solutions help Dream Report users meet their cybersecurity obligations while also fully realizing the benefits of the Dream Report platform both inside and outside of control networks,” explained Scott Coleman, Dir. of Mktg & Product Mgmt. for Owl. “We think this is an ideal partnership between two key products in the industrial automation space, and we are proud to have been chosen for the Dream Report Proven Partner Program.”

About Ocean Data Systems

Founded in 2004, Ocean Data Systems develops software solutions for industrial compliance and performance; reports, dashboards and ad-hoc analysis and troubleshooting. The product, Dream Report, is the leading “purpose built” solution for industry and the “Internet of Things (IOT).” Dream Report delivers both local and Internet connectivity to all major HMI/SCADA, Historian and business data sources through either proprietary or industry standard drivers. Dream Report’s markets include process, hybrid and discrete; with special functionality for Life Sciences (Pharmaceutical and Biotech), Water, Wastewater, Heat Treat, Building Automation, Energy Management and Manufacturing Operations. www.DreamReport.net

About Owl Cyber Defense

Owl Cyber Defense Solutions, LLC leads the world in data diode and cross domain network cybersecurity. With a constant focus on customers in the military, government, critical infrastructure, and commercial communities, Owl develops market-first, one-way data transfer products to meet a variety of operational needs, from entry level to enterprise. www.OwlCyberDefense.com
