OCEAN DATA SYSTEMS
The Art of Industrial Intelligence

Dream **Report**

FOR IMMEDIATE RELEASE

Dream Report 5 R19.3 is Released

Rockwell Automation and Siemens Connectivity, Plus Hosted Content

October 31, 2019 – Ocean Data Systems (ODS), the market leader in industrial reports and dashboards, announced that Dream Report 5 R19.3 has been released.

Dream Report 5 continues Ocean Data System's policy of releasing new features as part of a maintenance release for all Version 5 customers to use. Major features focus on enhancing connectivity to two leading vendors, Rockwell Automation and Siemens. In the previous release, Dream Report delivered FactoryTalk Historian Data connectivity. In this release, Dream Report delivers additional Rockwell Automation connectivity via FactoryTalk Live Data, FactoryTalk Alarm & Events, and the FactoryTalk View SE Alarm & Events Database. Siemens connectivity is enhanced with a new real-time driver for S7 200/300/400/1200/1500 PLCs. In addition to new data source connectivity, the Dream Report Portal has been enhanced to host external content in the form of URLs and Documents. Now Dream Report can become your One View into many automation systems, manuals and operational documents, delivering them with-in the Dream Report user-based security framework. New version numbering helps to explain the release – Dream Report version 5, third release in 2019.

"Dream Report isn't just another product. It's become the industry's leading solution for industrial reports," explained Roy Kok, VP Sales and Marketing for Ocean Data Systems. "Our customers rely on Dream Report for line of business information and our ability to deliver reports, dashboards and host external content, makes Dream Report even more valuable in every application. Dream Report continues to be a fast-paced product and we'll continue to deliver new functionality in every release."

About Ocean Data Systems

Founded in 2004, Ocean Data Systems develops software solutions for industrial compliance and performance; reports, dashboards, and ad-hoc analysis and troubleshooting. The product, Dream Report, is the leading "purpose built" solution for the automation industry and the "Internet of Things (IOT)." Dream Report delivers both local and Internet connectivity to all major HMI/SCADA, Historian and business data sources through either proprietary or industry standard drivers. Dream Report's markets include process, hybrid and discrete; with special functionality for Life Sciences (Pharmaceutical and Biotech), Water, Wastewater, Heat Treat, Building Automation, Energy Management and Manufacturing Operations. www.DreamReport.net
