Support for Excel Macro Workbook Format .xlsm

## The Dream Report Value Proposition

### The Reports and Information Distribution You Want, Not Just the Ones You Need

Other reporting and information sharing solutions are so difficult to set up and maintain that you only focus on the reports and data dashboards that are absolutely necessary. Dream Report changes the paradigm. With Dream Report, reports and interactive dashboards are so easy, you'll be generating and sharing all the reports you've ever wanted, and that's good for your business. Dream Report - Taming that ocean of data.

## NEW ClearSCADA Drivers

- Historic Values
- Historic Messages
- Real-time Values

Dream Report is the official solution for industrial reports and dashboards based on data from ClearSCADA.

## NEW OSIsoft PI Historian and Asset Framework Drivers

- ODBC Driver for Historical Values
- Web Services Driver for AF Real-Time
- Web Services Driver for AF Historical Data

Dream Report is now the leading industrial solution for use with OSIsoft PI Historian.

## Enhanced Advanced ODBC Driver

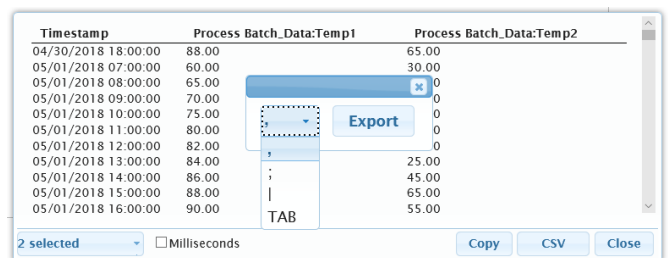

- New #AddressId# token for custom script queries
- New #SQC# token for custom script queries
- Support of “milliseconds since 01/01/1970” date type

## Enhanced Wonderware Online InSight Driver

- Data Quality Filtering
- Performance Enhancements

## Enhancements for All Users

- AST Enhanced for Ad-hoc Use
- Addressable Table Footers
- Excel Workbook Format .xlsm Supported
- Web Portal – Selectable Export Delimiter
