The Dream Report Value Proposition

The Reports and Information Distribution You Want, Not Just the Ones You Need

Other reporting and information sharing solutions are so difficult to set up and maintain that you only focus on the reports and data dashboards that are absolutely necessary. Dream Report changes the paradigm. With Dream Report, reports and interactive dashboards are so easy, you’ll be generating and sharing all the reports you’ve ever wanted, and that’s good for your business. Dream Report - Taming that ocean of data.

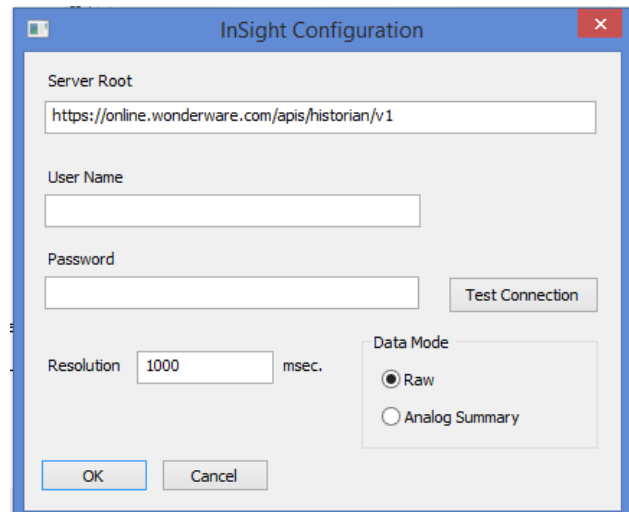

Remote and Concurrent Development

- Remote development CALs
- Check-out and Check-in functionality
- Run-time based authorization
- Studio deployment via Terminal Services
- Studio deployment as Windows App.
- Secure – User authorization, ports, & encryption

Improved Connectivity

- Online Historian Support
 - Wonderware Online InSight
- Wonderware Historian Data Quality
- GE SmartSignal Enhanced APIs
- GE Historian “Keep Connection”
