

**FOR IMMEDIATE RELEASE**

**Dream Report Wins a Control Engineering “Engineers’ Choice” Award**

*March 1, 2016 LYON, France* – Ocean Data Systems (ODS), the technology leader in automated reporting and corporate dashboards for industry, announced that Dream Report has won a Control Engineering, Engineers’ Choice Award.

Control Engineering, part of CFE Media, awarded products in 27 categories of control, instrumentation, and automation products introduced in 2015, as chosen by print and online subscribers. This is the 29th year of product recognition for the publication, highlighted in the February 2016 monthly edition, in several newsletters and at [www.controleng.com](http://www.controleng.com).

111 product nominations were entered for consideration in the 2016 Engineers Choice Awards. Control Engineering subscribers voted to identify the products they felt were the most exceptional based on technological advancement, service to the industry, and market impact. Engineers’ Choice Award winners and honorable mentions were named in 27 categories.

“We are extremely proud that Dream Report finished so strong against other high value solutions,” says Roy Kok, vice president of sales and marketing for Ocean Data Systems. “This is our second year to win this award. Dream Report had to prevail over 6 other excellent offerings nominated for the Software - Applications category this year. Congratulations go to our entire team that works together to innovate and continually improve this outstanding solution.”

**About Ocean Data Systems**

Founded in 2004, Ocean Data Systems (ODS) develops award winning software solutions for industrial report and dashboard generation for compliance and performance monitoring. Available in over a dozen languages, Dream Report, is the leading industrial strength technology for automated data analysis and report generation with thousands of installations worldwide. Dream Report delivers connectivity to all major HMI/SCADA, Historian and business data sources through either proprietary or industry standard drivers. Dream Report’s markets include process, hybrid and discrete, with special functionality for Life Sciences (Pharmaceutical and Biotech), Water, Wastewater, Heat Treating, Building Automation, Energy Management and Manufacturing Operations.
