

## FOR IMMEDIATE RELEASE

### Dream Report Version 4.82 is Available

*May 29, 2018* – Ocean Data Systems (ODS), the market leader in reporting and corporate dashboards for the automation industry, announced that version 4.82 is posted and available for download.

Dream Report version 4.82, technically a maintenance release, is available to all 4.8 customers. Along with a broad array of Customer Software Change Requests (SCRs), this release delivers on a theme of Partner Connectivity. Dream Report is now the official solution for the Aveva - ClearSCADA solution and version 4.82 includes drivers to access historical values, historical messages and real-time values. This release also includes new connectivity for the OSIsoft - PI Historian and Asset Framework. Enhanced connectivity is also delivered for the Aveva - Wonderware Online InSight product and the Dream Report - Advanced ODBC Driver for time series data in SQL Databases.

General features and benefits improvements include an enhanced Automatic Statistic Table to add flexibility for ad-hoc analysis, new access to Table Footer data delivering the ability to enhance report calculations using table footer results and support for .xlsm (Excel File Format) to support macros.

“Each new “Purpose Built” Driver added to Dream Report enables Dream Report to ideally support a new market segment and lets those customers benefit from Dream Report – Compliance Reports, Performance Dashboards and Ad-hoc Analysis,” explained Roy Kok, VP Sales and Marketing for Ocean Data Systems. “We always include enhancements that benefit our entire installed base and this release is no different. The Dream Report release notes, in the documentation directory, will detail all changes.”

#### **About Ocean Data Systems**

Founded in 2004, Ocean Data Systems develops software solutions for industrial compliance and performance; reports, dashboards, and ad-hoc analysis and troubleshooting. The product, Dream Report, is the leading “purpose built” solution for industry and the “Internet of Things (IOT).” Dream Report delivers both local and Internet connectivity to all major HMI/SCADA, Historian and business data sources through either proprietary or industry standard drivers. Dream Report’s markets include process, hybrid and discrete; with special functionality for Life Sciences (Pharmaceutical and Biotech), Water, Wastewater, Heat Treat, Building Automation, Energy Management and Manufacturing Operations.
