Kepware Joins Dream Report "Proven Partner" Program

January 13, 2015 LYON, France – Ocean Data Systems (ODS), the technology leader in automated reporting and corporate dashboards for industry, announced that Kepware Technologies has joined the Dream Report Proven Partner program.

Kepware's flagship solution, KEPServerEX, manages critical automation, facility, and infrastructure data. The platform design enables users to connect, monitor, and control diverse automation devices and software applications using a library of more than 150 protocols through one user interface, providing enterprise applications with reliable real-time and historical data. As Proven Partners, Kepware and ODS have tested and verified the compatibility of Kepware's Local Historian Plug-In for KEPServerEX and ODS's Dream Report products. Both companies are committed to collaborating and supporting their joint customers.

"Dream Report has developed a report generation solution used by many of Kepware's technology partners, including GE Intelligent Platforms, Inductive Automation, and Wonderware," explained John Harrington, Director of Product Management for Kepware. "Joining the ODS Proven Partner program is one step beyond just relying on industry standards for interoperability. We are committed to working closely with ODS to ensure the integration of our respective product interfaces in order to offer our mutual customers excellent support."

"Kepware recognizes Dream Report as a 'Best in Class' solution for compliance and performance dashboards and reporting in the industrial automation industry, and we have a large number of common OEMs and channel partners," said Roy Kok, Vice President of Sales and Marketing for Ocean Data Systems. "Dream Report can use KEPServerEX to connect to over 150 industry protocols for data collection and reporting through the use of OPC specifications, including OPC Historical Data Access (HDA) via Kepware's new Local Historian Plug-In."

About Ocean Data Systems

Founded in 2004, Ocean Data Systems (ODS) develops software solutions for industrial compliance and performance reporting. The product, Dream Report, is now the leading technology for automated data analysis and report generation with thousands of installations. Dream Report delivers connectivity to all major HMI/SCADA, Historian and business data sources through either proprietary or industry standard drivers. Dream Report's markets include process, hybrid and discrete, with special functionality for Life Sciences (Pharmaceutical and Biotech), Water, Wastewater, Heat Treating, Building Automation, Energy Management and Manufacturing Operations. www.DreamReport.net
