The Art of Industrial Intelligence

Dream Report®
The Leader in Industrial Reporting Technology

MAINTENANCE AND SUPPORT AMNESTY PROGRAM

Ocean Data Systems company, the leader in reporting and dashboarding technology for industrial automation is happy to inform you that due to the 15th anniversary of Dream Report software being on the market, Ocean Data Systems is announcing

Maintenance and Support Amnesty Program 2020:

◆ All customers, owning valid Dream Report licenses when renewing annual maintenance and support contract, are eligible to receive a free 1 step scope upgrade of the Dream Report license – either by tags or by web clients.

For example: If you have a Dream Report license DR-50/WEB-2, you can get a free upgrade for your license either from 50 tags to 250 tags, or from 2 web clients to 5 web clients.

(Please, note, that the upgrade is provided not automatic – you have to ask for it, pecifying, which exactly is your preferred upgrade type).

◆ All customers, who have an old and outdated maintenance and support contract, are eligible to renew it at 50% of the actual license price. In that case, the license maintenance and support contract will be renewed for one year, the customer can use all its benefits, including a free scope upgrade (from the p.1 above)

15 Years ago, on May 28th, 2005, the first Dream Report license was purchased by Vassiliko Cement Works (Limassol, Cyprus). The video on that project is available at this link:
