Windows Phone 8.1.

Additional Software Requirements

- To visualize PDF files you need to install Adobe Acrobat or other PDF viewer (the latest versions are recommended). The Adobe Reader installer is located in \ODS\Dream Report\Utilities\
 - To use Web Portal, you have to install a web server (Internet Information Server or other) before Dream Report® installation.
 - .NET Framework 3.5 **and** .NET Framework 4.6.1 or higher has to be installed before Dream Report® installation. Please note that for successful installation of .NET 4.6.1 you must ensure that the latest updates are applied for the Operating System!
 - If you want to use DRWeb Portal, please install IIS (Internet Information Services web server) before installing Dream Report. For additional information on configuring IIS for use with Dream Report, please refer to the **Web Portal** section
- For a complete list of supported operating systems and databases for all versions of Dream Report, please refer to the **Compatibility Matrix** on the *Tech Support > Tech Notes* section of the Dream Report website (<https://dreamreport.net/tech-notes/>) or our [Knowledge Base page](#).
