

## FOR IMMEDIATE RELEASE

# WIN-911 Joins Dream Report Proven Partner Program Recommends Dream Report for Analysis and Reporting

November 16, 2016, LYON, France and Austin, Texas – Ocean Data Systems (ODS), the market leader in reporting and corporate dashboards for the automation industry, announced that WIN-911 has joined the [Dream Report Proven Partner Program](#) and is recommending Dream Report as their solution for custom reports and dashboards.

WIN-911 is the most widely used alarm notification platform for industry and IIoT. The partnership with Dream Report enables WIN-911 users to analyze and report on the operation of WIN-911 beyond the standard reports built into the solution. WIN-911 offers alarm and activity logs available through a relational database. Dream Report, with over 70 interfaces to automation products and relational database standards, will acquire and analyze and integrate WIN-911 data with your other automation and business data, combining results into easily generated, reports and Web Dashboards.

“We are especially proud to be aligned with WIN-911 as they have a unique position in the market as does Dream Report,” explained Roy Kok, VP Sales and Marketing for Ocean Data Systems. “There is no stronger combination of products combining overall alarm notification with advanced reporting and analysis.”

“Dream Report is a quality product and we are always working to simplify the integration and on-going support of WIN-911 in conjunction with key partners,” explained Greg Jackson, CEO of WIN-911. “Customers are increasingly looking to analyze operational performance from all angles and will benefit knowing that our companies will work together in the support of joint customer solutions.”

### **About Ocean Data Systems**

Founded in 2004, Ocean Data Systems develops software solutions for industrial compliance and performance; reports, dashboards and analysis tools. The product, Dream Report, is the leading “purpose built” solution for industry and the “Internet of Things (IOT).” Dream Report delivers both local and Internet connectivity to all major HMI/SCADA, Historian and business data sources through either proprietary or industry standard drivers. Dream Report’s markets include process, hybrid and discrete; with special functionality for Life Sciences (Pharmaceutical and Biotech), Water, Wastewater, Heat Treat, Building Automation, Energy Management and Manufacturing Operations.
