

Water Distribution Report

Week 13

Water Storage

After being treated, the water is pumped to reservoirs and is stored until needed. The City has three reservoirs:

- Arbor
- Bisane
- Caly

Average Consumption	Consumption Reference	Gap	%	Comments
2 654 Gal	3 000 Gallons	N/A	N/A	N/A

with a total capacity of 600,000 gallons, enough for two days at average consumption.

Key Indicators

Tank Name	Tank Level	Air	Humidity (%)
Arbor	1 485	99 °	59.5 %
Bisane	750	50 °	32.3 %
Caly	1 170	78 °	55.1 %
Total	3 405 Gal	-	-
